Dear Sir/Madam,

I am writing to express my enthusiastic interest in securing an internship at your esteemed organization. As a proactive and passionate IT undergraduate student, I am eager to apply my academic knowledge and skills in a practical environment, and I firmly believe that your company offers an ideal platform for professional growth and development.

I am currently pursuing a Bachelor's degree in Information Technology at SLIIT, where I have developed a strong foundation in various IT disciplines, including software development, database management, and network administration. Throughout my academic career, I have completed numerous projects using technologies such as Java, Java Servlet, PHP, and the MERN stack. These experiences have not only enhanced my technical proficiency but also sharpened my problem-solving skills and attention to detail.

What particularly attracts me to your organization is its stellar reputation for innovation, commitment to excellence, and dedication to employee development. The core values upheld by your company align closely with my own aspirations, and I am inspired by the prospect of contributing to an environment that fosters continuous learning and professional advancement.

Thank you for considering my application for an internship position at your company. I am genuinely excited about the opportunity to contribute to your team and gain valuable insights from experienced professionals. Enclosed, please find my resume, which provides detailed information about my qualifications and experiences.

Thank you once again for considering my application. I eagerly anticipate the possibility of joining your esteemed team and making meaningful contributions towards the company's objectives.

Sincerely,  
Adithya Virajith

## ABOUT ME

I'm currently an undergraduate student deeply involved in the world of Information Technology. I'm meticulous when it comes to details and have a strong passion for continuous learning. I possess skills in programming, mobile app development, databases, web development, and IT project management. I work effectively within teams and can communicate well. I'm dedicated to staying updated with the latest industry trends and enjoy sharing my knowledge. My goal is to contribute through innovation and effective collaboration.

## PROJECTS

### Fashion Retail Management System [MERN]

- Inventory Management
- Merchandising and Product Management
- Point of Sale Transactions
- Increased Customer Satisfaction
- Customer Relationship Management

### Animal Clinic Management System [MERN]

- Staff Management
- Backend Implementation with Express and NodeJS
- Pet Details Tracking
- Database Management with MongoDB
- Frontend Design with React
- Request Handling between Frontend and Backend

### Digital Media Selling Mobile App [Kotlin]

- Buy and Sell Digital Media
- Developed with Android Studio
- Encourage Local Designers
- Server-side Management with Firebase
- Boost Sri Lankan Economy

### Online Grocery Ordering System

- Online Grocery Ordering
- Built in Eclipse EE
- MVC Architecture
- MySQL Database
- Developed in Java

### Construction Management System

- Connects Sellers for Product Showcase and Management
- Enables Efficient Shipping and Delivery by Logistics Partners
- Front-End Technologies: HTML, CSS, JavaScript
- Back-End Technology: PHP

## EDUCATION

Sri Lanka Institute  
of Information  
Technology  
2021 - 2025

Bsc(Hons) in Information Technology Specializing in  
Information Technology

SriPalee College  
Horana  
2012 - 2020

Passed G.C.E. Advanced Level Examination in 2019  
Physical Science Stream

## HONORS & AWARDS

Participated at the CODECON 3.0 Inter-University Hackathon organized by IEEE  
Computer Society of SLIIT
